ILO Meeting
10-11

We met to discuss our plans for this semester as well as report on the ILO process at the universities we researched. For this semester:

- We will be meeting with the Deans/Directors at their February 1st meeting and will spend some time preparing for that meeting. Preparation for this meeting will include:
  - A brief overview of the ILOs
  - Why they are important
  - How we already begin to meet them
  - What is to be done
  - Creating pathways for student learning that emphasizes the meaning, integrity and value of the UHM degree

- We discussed the link between the Program Review process and the ILOs and will connect with Wendy Pearson regarding how the ILOs might be integrated into the Program Review Process. Program review self-study documents can be found here: http://manoa.hawaii.edu/ovcaa/program_review/selfstudy.htm

- Our goal will be to begin communication regarding the ILOs outwards from the Deans to the Chairs to the Departments.

- Based upon our brief survey of our Peer and Benchmark Universities and their ILO process, it would appear that there is a broad range of approaches. However, our public visibility on these issues is insignificant and so we will need to work on some web design associated with the ILOs.

- Work with Gen Ed to integrate ILOs into the process of creating degree pathways (via the Program sheets).

Our goal for the next meeting is to have the beginnings of a presentation we can use both for the Deans/Directors as well as other constituents.

I will need help putting much of what we have done last semester into some sort of clear visual order – maybe a graph for how general ed meets the ILOs and then a graph that helps clarify our degree mapping process and how most majors do.

Any takers?
