ILO Meeting Minutes

1. We are beginning to get meetings with the specific colleges; CTAHR was the first to respond to our request.
2. We discussed the need for a clear and visible sample of best practices. Still working on what that might be.
3. We discussed how to clarify the ILOs – and generated some ideas for how to do this:
   a. Put them on syllabus
   b. Link to a website
   c. Put on 4-year plans
   d. Integrate into advising
   e. Develop courses and degree programs that support them
   f. Revise UHM 1&2 forms with ILOs in mind
   g. Include in the Authorization to Plan
4. Discussed the “to do” list that will be sent to Reed.
5. Discussed the transformation in how we understand general education that the ILOs create – from a “smorgasbord” approach to a “fix pris” approach.
